

*First Judicial District of Pennsylvania's ("FJD")*

*Invitation to Bid ("ITB")*

*For*

*Juvenile Drug and Alcohol Testing System*

*Dated May 8, 2018*

---

***VENDOR'S QUESTIONS AND ANSWERS ("Q&A")***

***<http://courts.phila.gov>***

---

***Q1. Will there be any Validity tests for these urinalysis screens? If so, what tests- i.e., Creatinine, Specific Gravity, etc.? Also, what would be the monthly volume for these? Validity test are not required for Family Court.***

***Q2. What is the current Case Management software that is being used to store these drug screen results?***

Currently, the testing machine has software that stores the drug screen results for the individual by drug. The Court utilizes this information for an internal documentation. Additionally, drug screen results for Juvenile Probation are manually entered into the "Juvenile Case Management System" (JCMS). Hard copy drug screen results are also maintained for the file.
